Lighting Projects

2018 - 2021

ENERGY-EFFICIENT LIGHTING IMPROVEMENTS

Between 2018 and 2021, the City of Saint Paul partnered with the **Center for Energy & Environment** and **Xcel Energy** to complete lighting assessments and upgrade light fixtures and controls at 50 municipal buildings!

COST SAVINGS

These lighting projects earned a total of \$266,000 in rebates from Xcel Energy and are collectively saving the City approximately \$175,000 on energy costs each year!
